Authorization for this examiner's amendment was given in a telephone interview with John R. Guice, Jr., Reg. No. 39699, concluded on 05 September 2006.

The application has been amended as follows in order to clarify that the claim is directed to elements of umbrella, to clearly define the relationship of the elements when the ribs are closed, and to clearly define the cooperation of the runner slot and the extension section longitudinal protrusion:

**Claim 5**, line 1: [[A locking assembly for an umbrella]] has been changed to An umbrella locking assembly

line 15: [[one]] has been changed to each

line 16: [[each of] plurality of ribs] has been changed to a respective one of the plurality of ribs, the plurality of stretchers supporting the plurality of ribs

line 21: on the extension section has been inserted after "located"

line 22: [[the plurality of stretchers supporting the plurality of ribs, the supporting plane holding the runner in a predetermined position]] has been deleted

**Claim 8**, line 1: [[notch]] has been changed to runner

line 2: [[notch]] has been changed to slot
